Portable Dynamic Scaling System

Measure individual wheel weights under full load using our Dynamic Scaling System. Electric push/pull cylinders with up to 6" of stroke can simulate chassis attitude on the track with simple toggle switch controls. Integrated 4500lb Dual Load Cells for each wheel measure wheel weights on the Longacre control panel. Use this system for static and dynamic set-ups. Completely portable and quick to set-up. Will work on any surface. Each billet aluminum scale box incorporates heavy duty leveling feet and dry Teflon® slip plates to eliminate chassis bind.

- 12" Tall Billet Aluminum Scaling Boxes
- Integrated 4500# Capacity Dual Load Cells on Each Pad
- Removable Roll Off Platforms Included
- Option to use your existing scales

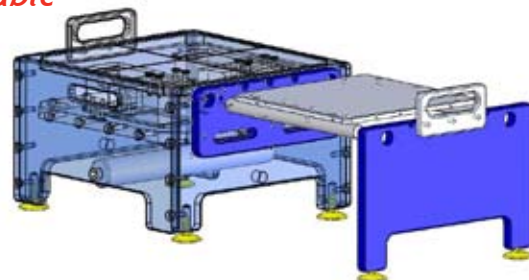

- 100% Electric (110v) Pull/Push Cylinders - No Hydraulics
- Completely Portable
- Fast Set-Up

- Available for perimeter and offset chassis
- Dirt Systems Available

- No Additional Load Applied to Floor
- Use on Any Surface
- Read Static & Dynamic Wheel Weights, Total, Cross & %
- Use System as Elevated Scale Platform
- Financing Available to Qualified Accounts
- Warranty: 5 Years on all Fixtures/2 Years on Electronics/1 Year on Push/Pull Cylinders
- On Site Set-Up & Training Available

Portable Dynamic Scaling System

Item Number	Description	Price
PD20200E	<p>NEW! DSS-300EL DYNAMIC WHEEL LOAD FIXTURE WITH INTEGRATED DUAL LOAD CELL/ 4500LB CAPACITY SCALES (Per wheel); BILLET ALUMINUM WITH LEVELING FEET; TRIPLE ELECTRIC PULL DOWN CYLINDERS; ROLLING TOOL BOX FOR SYSTEM STORAGE WITH INTEGRATED CONTROL PANEL AND SCALE DISPLAY</p> <p>System Includes:</p> <ul style="list-style-type: none"> (4) 12" Billet Aluminum Scale Boxes with Integrated 4500# Capacity Dual Load Cells (4) Detachable Roll Off Platforms (3) Electric Pull/Push Cylinders; 6" Stroke (2) 2" x 3" Steel Pull Down Beams (3) Pull Cylinder Beam Mounts (3) Pull Cylinder Chassis Mounts; Adjustable Height (4) Teflon® Slip Plates (One for each wheel) (1) 5 Drawer Tool Cart with Integrated Control Box and Scale Display 	\$13,495.00
PD20500	STRAIGHT RAIL INSTALLATION KIT FOR PD20200E/PD20300E; INCLUDES: (2) CROSS BARS WITH BRACKETS & CENTER RAIL	\$1,295.00
PD20550	ADDITIONAL PUSH/PULL CYLINDER KIT (Electric Push/Pull Cylinder & Mounts)	\$1,249.00

Dynamic Wheel Measurements

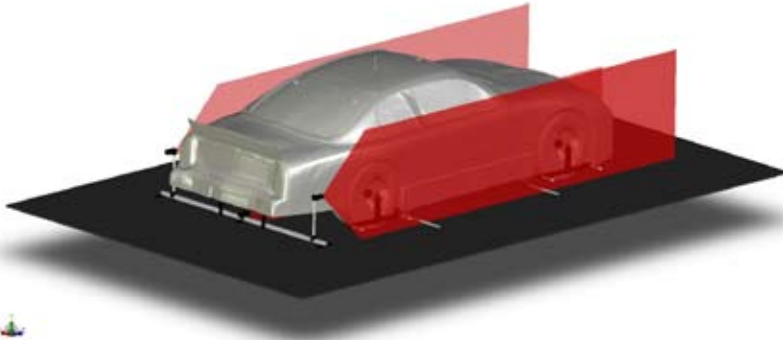

REAL SQUARE™

Wheel Alignment Systems for Motorsports

RS400PRO

Dynamic Wheel Location System

More than just Wheel Alignment, the Real Square™ RS400PRO Measures Individual Wheel Locations at the Contact Patch, Referenced to the Chassis, both Statically and Dynamically!

Most popular of all Real Square™ systems, the RS400PRO will provide all four wheel location measurements simultaneously, referenced to a frame rail or the chassis center line utilizing our chassis mounted laser stand. Simple one person operation provides accurate and consistent measurements race after race. Systems in use at professional race teams world wide.

Applications: NASCAR®, Late Models, Modifieds, Asphalt or Dirt, Circle Track or Road Race
Warranty: 10 years on all fixtures, 2 years on electronics.
Satisfaction Guarantee: 30 days/Full Refund.

Using our chassis mounted lasers, you can measure wheel location dynamically without any adjustment. Bump Steer, Rear Steer, Tread Width change, Camber & Caster change can be measured instantly by motioning the chassis.

- ✓ Four Wheel Toe
- ✓ Four Wheel Camber
- ✓ Caster
- ✓ Bump Steer
- ✓ Ackermann
- ✓ Wheel Base
- ✓ Rear End Location
- ✓ Individual Axle Tubes
- ✓ Rear Steer
- ✓ Chassis Locations
- ✓ Body Location
- ✓ Square Lower Control Arms
- ✓ Contact Patch Alignment & Lots More!

- Save Time & Improve Accuracy
- Fully Compatible with Pull Down Fixtures
 - Precision .050" Focusable Laser Line
 - Single Person Operation
 - On Site Training Available
- Financing Available to Qualified Accounts
- Read All Four Wheel Measurements Instantly, Even After Adjustments!
- Works on any shop floor, surface plate, set-up platform or suspension rig.

Item Number	Description	Price
90400P	Real Square RS400PRO Four Wheel/Dual Laser Professional Alignment System	\$3,695.00
	Specify hub adapters and frame squares. See page 10 for options.	
	System Includes: (4) Spindle or Hub Mount Axle Alignment Fixtures, (4) Wheel Measurement Fixtures, (2) Magnetic or Clamp-on Frame Squares, (1) Chassis or Floor Mounted Laser Stand with Left & Right Side Lasers, (2) Wall Board Storage Systems, Wheel Locator CD, Tools & Instructions	
98130A	Centerline Laser Option	\$499.00
96375	Offset Late Model Installation Kit (Port City, Lefthander, Hamke, Others)	\$89.00
96380	Asphalt Modified Installation Kit (Troyer, Spafco, Chassis Dynamics, Others)	\$230.00
96390	Dirt Late Model Installation Kit (Barry Wright, Mastersbuilt, Rocket, Others)	\$230.00
