# Lightweight, Ultra Low Drag Hub Seals

- **Lightweight Aluminum Housing**
- **One Piece Teflon Sealing Ring**
  - **Extremely Durable**
  - **Ultra Low Drag**
- **Hubs Spin More Freely**
- **Less Rotating Weight**

DRP Performance Products introduces our new lightweight, ultra low drag hub seals for wide five and 2" bearing 5x5 hubs. These new seals feature a lightweight aluminum housing and Teflon sealing ring. DRP ultra low drag seals have the lowest resistance of any conventional seal we've tested and are the lightest weight seal available. Ultra Durable, Ultra Light, Ultra Low Drag!
